Omaha, NE

PROGRAM: Charles Linquist, an employee of MEMCON, will talk about floppy disks, their manufacture and use.

SUMMER HAS BEEN REPLACED BY FALL

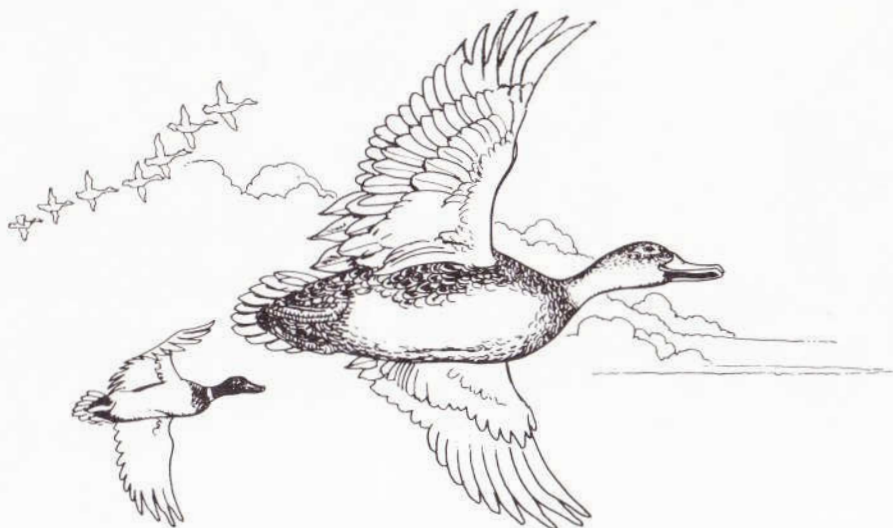

That's right! Fall has arrived and we are just a little bit away from the "spring forward — fall back" time change, and thus it is time for our President to form a Nominating Committee in order to prepare for the election at the annual meeting. The Nominating Committee is composed of the President and two or more past Presidents.

President Dave NØCLW has appointed the past Presidents in the following list to serve as this committee:

Walter Brown	KAØDMB
Richard Jugel	KØDG
James Peterson	WBØQGV
Dick Eilers	WØYZV

Should you have any suggestions, please contact any of the members of the Nominating Committee or just address it to "Nominating Committee, Ak-Sar-Ben Amateur Radio Club, Inc., P. O. Box 291, Omaha, Nebraska 68101.

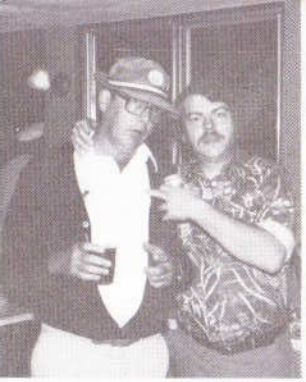

In order to get information to you for your study and the November issue of Ham Hum, please make your suggestions as soon as possible.

LARSEN ANTENNAS TAKE ON SHUTTLE COMMUNICATIONS

"The operation was an unqualified success!", so said ARRL's general Manager Dave Summer, K1ZZ reviewing the recent amateur radio operation of Owen Garriott, W5LFL, from the orbiting Space Shuttle Columbia. And so it was also for Carl J. Henniger, KA7GHR, who made his successful contact on an afternoon shuttle pass over Portland, Oregon.

"I did it with my mobile rig sitting in front of my garage with 45 watts of power feeding into a

Larsen Kulrod Antenna", Carl said. "I was sure thrilled 'cause I was competing with the moon bounce boys with their yagis and big antenna arrays."

KA7GHR also uses a Larsen Kulduckie portable antenna on his handheld rig and monitored the space shuttle with that transceiver though he didn't try a contact. "It was just as good as you ever hear somebody talk on two meters", Carl concluded.
